Perfect Food Industries

We are the pioneer processors and key suppliers of Dehydrated processed Agro-products from Pakistan. We aim to cater the needs of customers and food ingredient suppliers across the globe by focusing on Material Quality, Safety, Reliability and Service.

Our History

Perfect Food Industries started its operations in 1996 under the leadership and supervision of **Mr. M. Riaz Chaudhri, the CEO**. With limitless efforts, hard work and vast experience in adding value to agricultural products, the business grew tremendously. Our innovative business is built on Excellence, Responsibility and Trust. Since the first foundation stone laid for the company, we have never compromised on the Quality and Commitment. We carefully ensured that we are in tuned with customer's changing needs, with technological advancement. We strive to adopt the latest technologies to sync in our facilities in least possible time. This is the reason that we are named as the most reliable agro-ingredients suppliers, food processors, manufacturers and allied business in Pakistan.

We pursue the quote:

“Know your food, know your farmers, and Know your kitchen”

Joel Salatin

PFI at PRESENT

At PFI, we are committed to serve our customers with Natural, High Quality, Safe, Healthy food ingredients and its custom blends within a sustainable and nature friendly environment. We offer a bespoke service to our clients, which encompass precise Product and Package Specifications, Private Labeling, Just-in-Time deliveries for all types of Wholesale and Consumer requirements.

We are **ISO 22000:2015; ISO / TS 22021; FSSC 22000, HALAL, and ORGANIC** certified company.

Our Expertise

PFI, specializes in adding commercial value to Pakistan grown agro-produce and have its collection and processing facilities almost in all growing regions of the Country. In addition to offering fresh quality processed spices and herbs, we develop our in-house proprietary dry blends also available for wholesale to all food and allied businesses. Our clients also include small scale to large scale national and multinational Food and Snack manufacturers and wholesale suppliers of food ingredients and savory blend. We serve as a major source of ingredients and custom blends for restaurants and food manufacturing industries as first stop shop for wholesalers, retailers and online consumers.

We lead the ingredient supplier industry and offer **Controlled Aflatoxin, Heavy Metals, Pesticide and Organic Agro Products** in Pakistan.

Our PRODUCTS

- Dehydrated Fruits & Vegetables
- Herbs & Spices
- Potato Starch
- Candied Fruits
- Rice
- Pink Salt
- Frozen Fruits & Vegetables

Our team of experts work closely with farmers to enhance Quality & Safety based productivity. With vast years of experience in processing of Dehydrated Products, we make sure to maintain the equal quality and taste throughout the use.

To make our system more efficient we chose the strategic location for our process units. Our processing units are located in the Punjab and Sindh -provinces of Pakistan, right in the center of the vegetable, fruit and spice growing areas. This ensures the best & fresh quality raw materials yielding the lower-cast of the finished products.

Vision

Faizan Food Industries is in harmony with Human, Nature & Technology.

Human

We care for Consumer Safety and Well being. We guide farmers including female farm workers to adopt safe, environment friendly, quality assurance farming techniques abiding by international Safety Standards. We discourage child labor and encourage equal opportunity to female workers to improve socio-economic conditions in less privileged areas.

Nature

We carefully select and control raw materials from its growing regions in Pakistan and implement environ-friendly process and strict quality controls to meet our client's requirements.

Technology

We strive to improve and technically upgrade the specialized processing system at the company.

Our High-Tech Qualified Processing Systems

- GMP System-Sterilization System
- Sorting System Metal Detection
- Extraction, Purification System and State of the Art Dehydration System
- Quality Assurance System - Product Development
- Packing System-Specialized Extrusion System
- Research on Post-Harvest Agro-Produce Processing System

Research & Development

Besides main processing facilities we have a state-of-the-art pilot scale processing facility for R&D of dehydrated products.

Food Safety & Hygienic Standards

Our In-house Laboratory ensures food safety & hygienic standards, and qualified personnel ensure to implement superior grade standards in all the processes.

Our Mission

The key focus is on Quality, Competitive Pricing & Customer satisfaction based on trust to build lasting business relations. Our business approach is SIMPLE! Our system, processes and flexible policies ensure our customers to get the right ingredient and food solutions meeting their expectations. At **Perfect Food Industries** it is always a continuous effort to raise the bar in today's highly competitive food industry. We believe that the sky is our limit.

RED CHILLI *Capsicum furtescens*

Growing Period: July to November

Red Chilli, a major crop of Pakistan, is not only an important ingredient in food, but it also used for essential oil production. It is used in foods for pungency, aroma, and its typical red color. The Red Chilli we process and supply is collected from selected fields in the major agriculture regions of the country. Chilli quality is ensured at all stages from purchase to processing and is strictly monitored by our Quality Assurance Department. The red chillies when matured are harvested and immediately processed as fresh to preserve its unique flavor, aroma and colour. The best quality round and stemless Chilli is cleaned, sorted, sterilized and dehydrated through automatic machines and under controlled GMP conditions.

We can supply **CHILLI with Controlled Aflatoxin, heavy metals, pesticides and Free from artificial colours.**

Powder

ONION *Allium cepa*

Growing Period: September to April

Onion is one of the important condiments extensively used in all households. The onions we procure from farmers, at the time of procurement our quality control team inspects and ensures that onion is fully dried, the bulbs are firm, compact, un-sprouted (free from externally visible shoots) and free from swelling that may be caused by abnormal development. In addition various tests are performed to ensure the quality. New and improved methods of processing have been developed such as dehydration with automatic dehydration. We serve the customer with widest range of dehydration at the most reasonable rates in the market. Our pink onion, Leeks, and others are hugely demanded in the market.

We can supply **ONION with Controlled Aflatoxin, heavy metals, pesticides and Free from artificial colours.**
