Lahore, Pakistan.

# About Gammi Impex

Agriculture is our forte, primarily  
even from strong associations  
and long-lasting partnerships with  
owners for whom agriculture is a  
family affair. We harvested their  
experience and added value to it  
introducing technological inter-  
ventions in their work. We ensure  
a high level of hygiene and SPS  
measures throughout the production  
process. We are cognizant of the  
requirements of the international  
market and are dedicated to work  
client satisfaction.

# Food Safety

We “deliver” quality products.  
To maintain high standards  
of hygiene and food safety, we source  
from GAP certified farms (Global  
GAP certified on demand) and  
HACCP certified processing facilities.  
Our dedicated teams are especially  
trained to meet international quality  
standards.
